ROLAND E. STEWART, EXECUTIVE DIRECTOR

MEMO TO: Executive Committee, Staff & JEP
FROM: Roland E. Stewart
DATED: July 14, 1971
SUBJECT: ADAPTIVE SYSTEMS PROJECT

Adaptive Systems has informed us that their contract with OEO has been signed. They are ready to run 1200 people through the Computer Match over a nine month period, effective July 15th, 1971 to April 15, 1972, under the BICC banner. This is 30 people a week or 6 a day.

To accomplish this within the framework of the BICC structure, JEP and RES determined the need for $3\frac{1}{2}$ people at around \$24,000 for 9 months. An additional \$10,000 will be paid for administrative costs, totalling \$34,000. Adaptive Systems will, in addition, pick up all computer costs.

We feel this is a reasonable relationship all things considered. In the absence of strong disapproval, we will go ahead.

Roland E. Stewart
Executive Director
